# Manual For Septic System Professionals in Minnesota

<b>SECTION 1</b> .....	Introduction
<b>SECTION 2</b> .....	Administration
<b>SECTION 3</b> .....	Sewage Treatment Utilizing Soil
<b>SECTION 4</b> .....	Site Evaluation
<b>SECTION 5</b> .....	Wastewater Sources & Flows
<b>SECTION 6</b> .....	Plumbing and Collection
<b>SECTION 7</b> .....	Septic Tanks
<b>SECTION 8</b> .....	Tank Management and Septage
<b>SECTION 9</b> .....	Pumping Systems
<b>SECTION 10</b> .....	Pretreatment
<b>SECTION 11</b> .....	Distribution Of Effluent
<b>SECTION 12</b> .....	Soil Treatment Systems
<b>SECTION 13</b> .....	Forms and Reference
<b>SECTION 14</b> .....	Detailed Directory

# Guide to Key Tables

Table Type & Name	Location in Manual
1. Soil loading rate tables	
a. Loading rates and absorption ratios using detailed soil descriptions	Table 3.4
b. Loading rates and absorption ratios using percolation tests	Tables 3.7, 12.7, 12.13, 12.16
2. System performance and soil separation tables	
a. Treatment system performance testing levels	Tables 2.2, 5.16, 10.1
b. Vertical separation requirements based on soil group, system performance, and texture	Tables 2.3, 5.15, 12.5
3. Site evaluation setback tables	
a. MDH well setbacks	Table 2.5
b. DNR shoreland setbacks	Table 2.6
c. Septic tank	Tables 4.5, 7.1
d. Soil treatment system	Table 4.4
4. Flow tables	
a. Dwellings	Tables 5.2, 7.9, 10.6, 12.2, 12.8, 12.14
b. Other establishments	Table 5.6
c. Estimates of waste strengths from other establishments	Table 5.8
5. Septic tank sizing tables	
a. Dwellings	Tables 7.2, 12.3, 12.9, 12.15
b. Other establishments	Table 7.3
c. Baffle lengths	Table 7.5
d. When to pump a tank	Table 7.8
6. Above grade soil treatment systems tables	
a. Bermslope multipliers	Tables 12.10, 12.17
b. At-grade contour loading rates	Table 12.6
7. Pump tables	
a. Friction loss in plastic pipe	Tables 9.1, 11.3, 11.4
b. Equivalent lengths of pipe for PVC pipe fittings	Table 9.2
8. Pressure distribution tables	
a. Maximum number of perforations	Tables 11.5, 12.11
b. Perforation discharges in gpm	Table 11.6
c. Liquid volume of pipe	Table 9.3
10. Land application tables	
a. Site restrictions	Table 8.6
b. Temperature/pH correction	Table 8.8
c. Soil suitability	Table 8.9
d. Slope restrictions	Table 8.10
e. Separation distances	Table 8.11
11. Equations and Constants	Section 13-3
