We are limiting the number of attendees at in-person workshops and are scheduling classes quarterly to keep up with ever-changing Covid 19 restrictions.

Continuing Education Workshops through December, 2021

Onsite Sewage Treatment Program

The hybrid Soils CE contains an online Zoom lecture and an in-person component. BOTH must be completed in order to fulfill the soils-specific credit requirement.

These are all separate courses. You may not register for more than one session due to the need to accommodate the large number of certified individuals who also need to earn their continuing education hours. You may not attend a session that you have not registered for, or switch sessions without cancelling your original registration and re-registering for a new session.

To reduce the risk of COVID-19 transmission, the OSTP has protocols based on guidance from the CDC, MDH, and UMN. Participants are required to wear a face covering that covers both the nose and mouth and maintain a distance of 6-8 feet from other participants at all times. During check in, there will be a no-contact temperature check, along with a series of screening questions.

IMPORTANT MPCA UPDATES

OSTP STAFF
OSTP staff can answer questions about workshop availability, publications, soils, design forms, research, small community issues, and technical assistance.
Website: www.pca.state.mn.us/ssts
Email: ssts-info.pca@state.mn.us
Phone: 800-657-3659

MPCA STAFF
MPCA SSTS staff can answer questions about your business license, professional certification, certification examinations, state rule interpretation, local ordinance assistance, and business complaints.
Phone: 800-657-3659
Email: ssts-info.pca@state.mn.us
Website: www.pca.state.mn.us/ssts

WHO TO CONTACT

Participation in online classes requires a guest learning account in order to access course content. We encourage you to register for the below classes online in order to have one created.

- An internet connection (broadband wired or wireless, with 600kb down)
- A computer/device with speakers (built-in or plug-in, or wireless Bluetooth)
- A webcam (either built-in to the computer/device, or plug-in)
- A valid picture ID
